Top Brands of Air Compressors in the market 2015

Are you looking for **Top Brands of Air Compressors 2015** ?

Just like other devices available in the market, oftentimes, **branded air compressors** are usually of better quality as compared to generic ones. Likewise, they're considered to be more heavy-duty and provide better warranty.

Thus, if you're one of those people who are thinking of using an air compressor regularly, it's advisable to invest in one that could last for a long time- the top of the line devices. With this, you'll have a guarantee that the manufacturer would still be around in case your device starts to malfunction or you need some replacement parts.

However, it's also important to keep in mind that finding the right manufacturer is usually as important as choosing the ideal air

compressor based on its features. Read on to discover some of the *best air compressors* that you could definitely rely on.

Porter-Cable

One of the most popular air compressor brand is the Porter-Cable. It has been in the business for years—since 1906 up to present. Furthermore, it's also one of the leading power maker tools all over the world, ever since it started to focus on power tools in 1914..

As for air compressors, you could easily get your hands on new and factory-reconditioned devices. However, considered to be the most popular choice is the [Porter-Cable C2002-WK](#), with a 13-piece accessory kit. Likewise, the [Porter-Cable C1010](#) is another popular model that's lightweight, weighing only 23 pounds.

Makita

Founded in 1915 with a head office located in Japan, Makita Corporation has manufactured a lot of stationary woodworking machines, electric power tools, garden tools, air tools, and household tools.

Furthermore, Makita is also one of the pioneers that introduced heavy-duty power tools with AVT (Anti-vibration Technology), which implies that most of their products have vibration ratings that are comparatively lower than the other tools available in the market.

In February 1981, Makita launched its very first air tools, such as the AC6001 air compressor and [AN500 pneumatic nailer](#). Today, the [Makita MAC700](#) could be considered as one of the most popular air compressors today. Likewise, the [MAC5200](#) is also another great product.
